I hope you never change your mind  
Cause it's time  
Real

You know I will always be around  
If you doubt  
And even if you move uptown

And I'm ready for love  
Just like the last time baby  
Ready for love

I've seen the stars in your eyes  
Heard your lies  
While she's sleeping

I guess we had our ups and downs  
Turn around  
Hey baby, you're the best I've found

And I'm ready for love  
Just like the last time baby  
Ready for love

Ready for love  
Yes I'm ready for love

Ready for love  
Like the first time  
Ready for live  
Just like the first time

Ready for love  
Ready for love  
Ready for love
