Throwing up with the thought of you two
How could you do this?
My best friend with my bride
Now you tell me you are leaving

They'll see your fire through the dark night sky
I hope you're home when I arrive
If there's a fire in the afterlife
I'll be there again to light the match, burn

Gasoline and fire
Is the perfect combination
Light it up, burn it down
Burning my addiction

They'll see your fire through the dark night sky
I hope you're home when I arrive

If there's a fire in the afterlife
I'll be there again to light the match

I am the light that warms up your body
And sets free the demons inside
I am the one that never ignores you
That never will let you down

They'll suspect but they'll never prove I was there
In my fate I feel the wrath of adrenaline

I am the light that warms up your body
(It's too hard to run away when I watch you stay)
That sets free the demons inside
I am the one that never ignores you
(To watch it burn, watch it churn into dust)
That never will let you down
