My name is anything I want it to be
I'm striking chords in a way you've never seen
But I'm taking a long shot, I fought the fight and lost
I can't take it, I won't make it now.

I've given everything, I've let you take over me
I'm climbing mountains but drowning in the sea
And I admit it, I don't regret it

You've taken everything and left these broken wings
So here, I lay...

I never thought you would leave me here
A jaded mess full of hate and fear
I'm playing the victim but I only have myself to blame
I'll rename, restart this game

My name is anything that you want it to be.
Your games are endless but I can guarantee I'll be the
last one to ever give this up
I'll take it all the way until I get my day but here, I lay...

I never thought you would leave me here
A jaded mess full of hate and fear
I'm playing the victim but I only have myself to blame
I'll rename, restart this game

I'm giving up this time
I can't take anymore of these confines
I've become something I'm not, a person who plays it
safe, everything I hate

So here I'll lay, you finally got your way

I never thought you would leave me here
A jaded mess full of hate and fear
I play the victim I still only have myself to blame
End my reign, I'll fade away

My name I will not say, you have never heard of me
It keeps reminding me what I'll never be
