I can resist everything
Except temptation
My body breaks
I'm intact inside

My human instinct
I can love unconditionally
Cross my heart
And lie to you

My conscience plagues at me
Fills me with this despair
(Failure within me)
Promise you and let you down

Emotion conquers my soul
Robs me of myself
(Brings me to my knees)
Follow me lead you astray

Nourish myself with fear
Give me the pain to fail
(Loathe myself to sleep)

Your words kill me
You can breathe
Without oxygen
And live without sorrow

How I envy you
Though pity your ghost
Ignorance is bliss
I wish I could never love you

Cross my heart
And lie to you

My conscience plagues at me
Fills me with this despair
(Failure within me)
Promise you and let you down

Emotion conquers my soul
Robs me of myself
(Brings me to my knees)
Follow me lead you astray

Nourish myself with fear
Give me the pain to fail
(Loathe myself to sleep)

Your words kill me

So ironic that a heart made by man
When broken is easily fixed
But if human hurts
Can last a lifetime

Rust or decay
The fire or the flame
You and I will lead the path to change
(Pave the way)

Rust or decay
The fire or the flame
You and I will lead the path to change
(Pave the way)

Rust or decay
The fire or the flame
You and I will lead the path to change
(Pave the way)

Pave the way
Pave the way
Pave the way
