The Man Machine
The Sax Machine
And everything
In between

The shoes
The floor
The makeup (Put makeup)
The dog

D-I-S-C-O
And I go

I know a place
Under the bridge
And off the radar

You can be Space
I'll be The Invader
I'll take you there

Why don't we step off the map?
Keep on turning till there's no turning back
Why don't we step off the map?
Keep on turning till there's no turning back

Smoke it up
Suck it down
Burn it up
Throw it down

Aaaaaaaaaaaaaaaaaaaaaaaaaaaaa (Aaaaaaaaa)

Keep on turning till there's no turning back
Keep on turning till there's no turning back
Keep on turning till there's no turning back
Keep on turning till there's no turning back

Now I know a place
Under the bridge
And off the radar

You can be Space
I'll be The Invader
I'll take you there

Why don't we step off the map?
Keep on turning till there's no turning back
Why don't we step off the map?
Keep on turning till there's no turning back

Smoke it up
Suck it down
Burn it up
Throw it down

Suck it up
Smoke it down
Burn it up
Throw it down

Keep on turning till there's no turning back
Keep on turning till there's no turning back
Keep on turning till there's no turning back
Keep on turning till there's no turning back

(All Niiiiiiiiiiiiight)
Keep on turning till there's no turning back
Keep on turning till there's no turning back
Keep on turning till there's no turning back
Keep on turning till there's no turning back

(All Niiiiiiiiiiiiight)
Keep on turning till there's no turning back
Keep on turning till there's no turning back
