(T. Dayne, A. Baker, e. Zarr)

Whatever you want me to do
I will it for you
Whatever you want me to be
I will be what you need
Because its vibes that I feel
Whenever youre really near
Im feeling sensual
I cant deny in myself
Im wanting you and no one else
Youve got me raptured
Uh huh
(r)Cause time takes and love heals
Wherever we are I know that its real
Whatever you want me to do
I will do it for you
Whatever you want me to be
Yeah, yeah
I will be what you need
Because its love that I feel
Whenever youre really near
Im feeling sensual
But now I know, I know that its real
Hey hey hey hey
Oh oh oh yeah
I know youve got flames in your heart
That tore you apart
I know youve been safe on your own
yeah
But together were strong
Because its love that I feel
Whenever youre holding me
Im feeling passionate
I cant deny in myself
Im wanting you and no one else
You got the power
Uh huh
Cause love takes and time steals
And deep in my heart
I know that its real

Whatever you want me to do
I will do it for you
Whatever you want me to be
I will be everything
Because its love that I feel
Whenever youre next to me
Im feeling sensual
And now I know, I know that its real
yeah
Whatever you want me to do
Whatever you want me to do
oh
Cause time takes and love heals
Wherever we are I know that its real
I know, I know that its real
yeah
Whatever you want me to do
I will it for you
Whatever you want me to be
yeah
I will be everything
Whatever you want me to do
I will it for you
Whatever you want me to be
What you need
Whatever you want me to do Baby baby I will do if for
you Im feeling sensual
