Trying to forget about the thought of moving on  
But I'll try and I kept waiting  
Trying to move on without you feels so wrong  
But I'll try and I'll keep waiting for you  
I know it's only been  
In the back of your mind since we said goodbye  
But I swear it's been so long  
Yesterday's so far behind  
I can't decide what to dream tonight  
It makes me so afraid that it won't come true  
So let me lay here  
And waste the day with you  
Can we start all over again?  
Would it be easier until then?  
Trying to forget about the thought of moving on  
But I'll try and I kept waiting  
Trying to move on without you feels so wrong  
But I'll try and I'll keep waiting, I'll keep waiting for you  
You say it's only been  
In the back of my mind since you said goodbye  
But I know it's been so long  
I thought yesterday could maybe be that day  
That you finally call my name like you used to do  
Like I know you will  
Oh, just don't be afraid for you  
To never mind those days  
Can we start all over again?  
Would it be easier until then?  
Trying to forget about the thought of moving on  
But I'll try and I kept waiting  
Trying to move on without you feels so wrong  
But I'll try and I'll keep waiting, I'll keep waiting for you  
Even though you walked away  
Everything about you makes me smile  
Even though it's been awhile  
You know that I'll be there  
Trying to forget about the thought of moving on  
But I'll try and I kept waiting  
Trying to move on without you feels so wrong  
But I'll try and I'll keep waiting, I'll keep waiting  
I'll keep waiting for you
