Well it's time to head out  
Gotta find my place to rest  
Before the sun goes down  
In the darkness of the west

If I rest my head  
Would I have to lay upon the stone  
If I rest my head  
Would I lay to rest alone

Well it's time to head out  
Gotta find my place to rest  
Before the sun goes down  
In the darkness of the west

If I climb those stairs  
Will I find my way back to home?  
If I climb those stairs  
Would I find my way alone?  
Alone...  
Alone...

...(There must be something real)...  
...(There must be something more)...

I'm searching, searching  
There must be something real  
Searching, searching

If I rest my head  
Would I have to lay upon the stone  
If I rest my head  
Would I lay to rest alone  
If I climb those stairs  
Will I find my way back to home?  
If I climb those stairs  
Would I find my way alone?  
Alone...  
Alone...
