Iâ€™ve been alone  
I just told it to everyone  
But everything is right  
Now I feel so right with you  
Because I finally heard  
I can see the sun  
Something inside me has changed

Weâ€™ll be around  
Our state of grace  
Together looking around  
What weâ€™ve made  
Another world over us  
Where to love again

I donâ€™t wanna be late  
Everybody knows that our love canâ€™t wait  
Are you ok?  
Donâ€™t be afraid!  
Because I finally heard  
I can see the sun  
Something inside me has changed

Weâ€™ll be around  
Our state of grace  
Together looking around  
What weâ€™ve made  
Another world over us  
Where to love again

Everytime you smile  
I feel I could fly  
Please donâ€™t ever stop  
I donâ€™t wanna die
