I had a walk the other day  
To meet someone I think you know  
The air was cold, skies were so gray  
Somebody lay on the ground below

All for you, all for you  
All for you

Came face to face felt so uneasy  
Oh so, confused as what's going on  
Just could not move feel so afraid  
Whisper the words the words what you said

All for you, all for you  
All for you

Into the street people can meet  
Don't turn your back to the view  
The silver blade can cut up your throat  
I tell you now 'cause I know it's true

All for you, all for you  
All for you

I had to walk the other day  
To meet someone  
All for you, all for you

I had to walk the other day  
To meet someone  
All for you, all for you

I had to walk the other day  
To meet someone  
All for you, all for you

I had to walk the other day  
To meet someone  
All for you
