Dolphins

When they say that  
Say it's wise  
They say that  
Now is the only time  
To reach for what remains  
To look o'er what's the same

Dolphins swim around  
Dolphins drag me down  
Drag me down

Say that, it's the truth  
There's an oceans  
Right in front of you  
Dolphins, hit the sound  
And when dolphins circle around

If it seems so  
Like the world juts in  
Those dolphins, drag me down  
Drag me down

(machtig tussenstuk)

Say that, say it's wise  
Say that it' the only vice  
Yet you say so what remains?  
And look so uncertain

And dolphins look around  
And then dolphins drag me down  
And when it looks through  
The world juts in  
Dolphins drag me down  
Drag me down
