Shooting from the hip about our faith and love
I see it in your faces thin as shadow
See me as I figure in your late night plan
See me as I'm cocooned up in Badland

The side effects of cruising at the speed of life
Side effects of living in temptation
When only one star is waiting up on all of us
You'll see me as I'm cocooned up in Badland

And how do I feel living in the eighties?
And will I ever get to see the light of day?

Kyoto in the snow but Heaven's far away
Sending their love, passion parade
Hunter and the hunted
With me first times can never lie

They were young, they were brave, honest set
The greatest show on earth is here tonight, love
See me as a figure in the late night plan
See me as I'm cocooned up in Badland

The side effects of cruising at the speed of life
Side effects of living in temptation
When only one star is waiting up on all of us
You'll see me as I'm cocooned up in Badland

And how do I feel living in the eighties?
And will I ever get to see the light of day?

Kyoto in the snow but Heaven's far away
Sending their love, passion parade
Hunter and the hunted
With me first times can never lie

Hunter and the hunted
Only with me first times can never lie

Life moves so fast
Only with you, love
Life moves so fast

Only with you
Life moves so fast
Only with you, love
Life moves so fast

When you hear me screaming
I'll be seeing through the eyes of love
When you hear me screaming
I'll be seeing through the eyes of love

Tell me can you hear me?
Tell me can you see me?

Through the eyes of love
Through the eyes of love
