Heavenly Ghost calling us out  
Wishing they shout without  
Sent in the end in heaven above  
And kissing yourself goodbye  
Messenger calls, calling us out  
Stand over by my side  
By myself beating you  
Get over by my side

In Every Heaven there's a chance that I'd take  
In Every Heaven dreams can make  
In Every Heaven tomorrow I'll stay  
(Ah) In Every Heaven coming my way

Seeing the show, Easter in snow  
Kissing yourself goodbye  
Heat wave and haze in the galls of raise  
Kissing yourself goodbye  
Radio plays the static of love  
Stand over by my side  
Heaven above us, heaven that cries  
Get over by my side

In Every Heaven there's a chance that I'd take  
In Every Heaven dreams can make  
(Ooh) In Every Heaven tomorrow I'll stay  
(Ooh) In Every Heaven coming my way
