Ever felt that you've been lied  
And somehow you just can't provide the proof  
Ever felt you're cast aside  
And sheltered from the universal truth  
Ever find when trouble calls you're first in line  
And stick your finger in  
Everybody's talking 'bout 7 deadly sins

Number one says drop the gun  
There's nothing out there that's worth dying for  
And number two that's me and you  
I'm green inside and jealous to the core  
Number three fidelity I've lost the path  
And I'd better start again

This thing's got a strange mystique  
The 7 deadly sins  
This thing's got the whole world beat  
7 deadly sins

I can hear them calling out  
I can hear them screaming out

Blood is sweet like a deep red river  
And where it goes I don't know  
You make me sweat  
And you make me shiver  
Where it goes I don't know

If you've got sticky fingers  
You got dreams that linger running through your brain  
Well vanity's the flying "V"  
Desire is the one who gets the blame  
If you're looking for a goldmine  
When all around you seems be tin

I'm not superstitious 'bout the 7 deadly sins

Everybody's calling out 7 deadly sins  
Everybody's dreamin' 'bout 7 deadly sins
