

Simple Minds "Spaceface"

Visit "[Spaceface](#)" on [MotoLyrics.com](#)

She don't need no rocket ship
(Rocket ship, rocket ship)
Just close her eyes and takes a trip
Baby's big on aviation
(Aviation, aviation)
Baby, loves a levitation
(Levitation)

Yes, she's a spaceface floating 'round
She's never coming down
(Coming down, coming down)
My little spaceface floating 'round
She's never coming down
(Coming down)

Never coming down
Never coming down
(Coming down, coming down)

Baby's talking to the stars
Ain't got time for idle wars
(Space, space, space, space)
And I don't worry anyway
As long as I know she's okay
(She's okay)

Yes, she's a spaceface floating 'round
She's never coming down
(Coming down)
My little spaceface floating 'round
She's never coming down
(Coming down, coming down)

She's a spaceface floating 'round
She's never coming down
(Coming down, coming down)
My little spaceface floating 'round
She's never coming down
(Coming down, coming down)

Never coming down
(Coming down, coming down)

Tell me what you see
I'll be there if you wait for me
Will soon be home
I'll be there, you're not alone

Ah, spaceface
My little spaceface
Ah, spaceface
Never falling down
Never falling down

Yeah, she's a spaceface floating 'round
She's never coming down, never coming down
My little spaceface floating 'round
She's never coming down, never coming down
Never coming down

She's never coming down
Never coming down

She never coming down
Never coming down
