You know my heart beats rhythm
And my dreams still take me higher
I've traveled round the world
But they can't cure my desire

The city looks pretty tonight
Hold on now, let's go till morning
Get up on love and stand by me
Stand by love and stand by me

I'm a shell shocked lover
Under cover, that's my game
I'm your long lost brother
Little sister, what's your name?

I feel so alone
I'm stranded and so far from home I'm calling
Get up on love and stand by me
Stand by love and stand by me, stand by love, ooh, ooh

Love, stand by love, stand by me
Stand by love and stand by me

Give me one good reason
Why you don't come, play with fire
'Cause when the air starts moving
You know I'm no liar

The city looks pretty tonight
Oh, hold on now, let's go till morning
Get up on love and stand by me
Stand by love and stand by me
Stand by love and stand by me, stand by love and
stand by

Stand by love

Stand by love and stand by me
Stand by love and stand by me
Stand by love and stand by me
