

## Simple Plan "One Slow Dance"

You're standing there alone  
And so am I  
But I want you here  
By my side  
Ohh  
You smiled at me  
Is everything  
This staring game  
That song of love

I look you in the eyes  
I try to read your thoughts  
I ask you to go with me  
To a far off place  
Ohh

I look you in the eyes  
I try to read your thoughts  
I ask you to go with me  
To a far off place

You and me dancing the night away  
You can feel my heart beating so hard  
We look eye to eye  
But I've swept you away

On a moonlit walk on the beach  
Watching the sunrise  
For the first time  
I'm in a truce  
For that one slow dance

You're standing there alone  
And so am I  
But I want you here  
By my side  
You smiled at me  
Is everything  
The staring game  
That song of love

I look you in the eyes

I try to read your thoughts  
I ask you to go with me  
To a far off place  
Ohh

I look you in the eyes  
I try to read your thoughts  
I ask you to go with me  
To a far off place

You and me dancing the night away  
You can feel my heart beating so hard  
We look eye to eye  
And I've swept you away

On a moonlit walk on the beach  
Watching the sunrise for the first time  
I'm in a truths for that one slow dance

We don't have to talk  
We don't have to live at all  
I just want you here with me  
We don't have to talk  
We don't have to live at all  
I just want you here  
You and me

You and me dancing the night away  
You can feel my heart beating so hard  
We look eye to eye  
But I've swept you away

On a moonlit walk on the beach  
Watching the sunrise for the first time  
I'm in a truce for that one slow dance
