You're standing there alone
And so am I
But I want you here
By my side
Ohh
You smile at me
Is everything
This staring game?
That song of love

I look you in the eyes
I try to read your thoughts
I ask you to go with me
To a far off place
ohh

I look you in the eyes
I try to read your thoughts
I ask you to go with me
To a far off place

You and me dancing the night away
You can feel my heart beating so hard
We look eye to eye
But i'm swept away

On a moonlit walk on the beach
Watching the sunrise
For the first time
I'm in a trance
For that one slow dance

You're standing there alone
And so am I
But I want you here
By my side
You smile at me
Is everything
The staring game
That song of love

I look you in the eyes
I try to read your thoughts
I ask you to go with me
To a far off place
ohh

I look you in the eyes
I try to read your thoughts
I ask you to go with me
To a far off place

You and me dancing the night away
You can feel my heart beating so hard
We look eye to eye
And I'm swept away

On a moonlit walk on the beach
Watching the sunrise for the first time
I'm in a trance for that one slow dance

We don't have to talk
We don't have to live at all
I just want you here with me
We dont have to talk
We dont have to live at all
I just want you here
You and me

You and me dancing the night away
You can feel my heart beating so hard
We look eye to eye
But I'm swept away

On a moonlit walk on the beach
Watching the sunrise for the first time
I'm in a trance for that one slow dance
