Come again She said.  
Heading for the longest road.  
One too many times.  
She'd pretend to come two feet in.

(Stay away)  
I being to freak and run  
(Stay away)  
Then she said don't never come back home  
(Cry away)  
The days, they felt so long  
(I'm away)  
Just say away  
Stay with me.

I could find the pain  
That he left inside your heart  
Fallen in the rain  
Your whole life has fallen apart

(Stay away)  
I being to freak and run  
(Stay away)  
Then she said don't never come back home  
(Cry away)  
The days, they felt so long  
(I'm away)  
Just say away  
Stay away.

(She Cries)  
She Cries away  
(Cries away tonight) inside  
With Life  
With Life  
Without fears we'll hear them say  
Here's a kiss good bye

Say this is real  
She doesn't feel  
Don't leave hearts  
Shattered dreams

There's nothing better in this place  
No free bird  
Memories  
In your mind

(Stay away)  
I being to freak and run  
(Stay away)  
Then she said don't never come back home  
(Cry away)  
The days, they felt so long  
(I'm away)  
Stay away

(She Cries)  
She cries away  
(Cries away tonight) inside  
With Life  
With Life  
Without fears we'll hear them say  
Here's a kiss good bye

Oooo Oooo  
(She Cries)  
She cries away  
(Cries away tonight) inside  
With Life  
With Life  
Without fears we'll hear them say  
Here's a kiss good bye
