Words and music mick hucknall

'before we go on the honeymoon is over...

Just because I've never known your face  
Don't look at me in the wrong way  
To try and pick you out from all this space  
The coldest room in the whole damn place

Chorus

Lady godiva's room  
The only place she ever played in tune  
Lady godiva's room  
The only place she ever played her bells in  
Ah this is madness  
This is insane  
Gloom

Before we go on the honeymoon is over

When I asked I was beside myself  
Thought that marriage would turn out well  
The love we have is still inside us  
The dreams we had have left inside and died  
In this holly and ivy age  
The day we kissed on the mistletoe train

Chorus

Before we go on the honeymoon is over  
Before we go on the honeymoon is over  
Lady godiva the honeymoon is over
