

Simply Red "Out On The Range"

Visit "[Out On The Range](#)" on MotoLyrics.com

It's lonely out on the range
That open space they call country

I wanted you I couldn't have you
Your pills left you kind of deranged
Hopelessly caged like some monkey
I wanted you, I couldn't have you

Still into my heart you came
Here's a message from this lonely boy
Who will never feel the same
I will never feel the same

I read you while holding the page
You're open at crazy and funky

I needed you but you weren't there
Happiness can give you the blues
Especially when it ends, hey
I'm slowing down can't turn you round

Into my heart you came
Here's a message from this lonely boy
Who will never feel the same
I will never feel the same

I needed you but you weren't there

Yeah into my heart you came
Still into my heart you came
Oh into my heart you came
It's just a message from this lonely boy
Who will never feel the same
I will never feel the same

I'm not moving
I'm not moving
I'm not moving

...
