Where do you want to go?
Are you sure of the road that you're on?
Who do you want to be?
All I know is the world deserves to be free
(Let's pretend)
We're staring from the moon
Love is not only but for the human

Look at the world you know
Do you believe it will go on?
Where do you want to go?
The things we take will only last for so long
(In the end)
You know it's up to you
But love is not only but for the human

(Oh man we are so many people)
Living different lives under turbulent times
(Oh man we don't know good from evil)
Looking through our eyes is the burden of our lives

Say can we tell for sure
The north and south will keep their snow on
Say can the earth endure
Do you really believe we can go on?
(In the end)
You know it's up to you
Love is not only but for the human

(Oh man we are so many people)
Living different lives under turbulent times
(Oh man we don't know good from evil)
Looking through our eyes is the burden of our lives

(Oh man we are so many people)
Living different lives under turbulent times
(Oh man we don't know good from evil)
Looking through our eyes is the burden of our lives

(In the end)
God is the universe and the universe is you

(Oh man we are so many people)
Living different lives under turbulent skies
(Oh man we don't know good from evil)
Looking through our eyes is the burden of our lives

Oh man we are so many people
Oh man we are so many people
Oh man we are so many people
Oh man we are so many people

Oh man we are so many people
Oh man we are so many people
Oh man we are so many people
