As I look into your eyes I see the sunrise
The light behind your face helps me realise

Will we sleep and sometimes love until the moon
shines
Maybe the next time Ill be yours and maybe youll be
mine

I dont know if its even in your mind at all
It could be me
At this moment in time
Is it in your mind at all
It should be me, it could be me
Forever

Wandering through life will love come home to you
And the love you want forever, will they be true to you

Will we sleep and sometimes love until the moon
shines
Maybe the next time Ill be yours and maybe youll be
mine

I dont know if its even in your mind at all
It could be me
At this moment in time
Loves indescribable
It should be me, it could be me
Forever

Easy, ready, willing, over time
Where does it stop where do you dare me to draw the
line
Youve got the body now you want my soul
Dont even think about it say no go
