[Beverley Knight]

I can see the light, but maybe we don't need no light  
I can see your mind, maybe tonight  
I know I've been wrong, expecting you to take your time  
I can read your mind - baby you're right

You can say, the things you want to  
Give away, the things you don't know  
You can tell what you do, you can see the light  
You can do what we do, what we do is right  
You can tell what you do, you can see the light  
Baby loving you...

Baby said it  
Admit it was the first time for you, babe  
Set you free, you burned your body love  
Admit it was the first time for you, babe  
Baby with me, you burned your body love (love)

[Sinclair]

I can see the light, baby do you read me right  
Can see me cry, you don't know why  
When you see me try, try to make you realise  
I can see the light, you're on fire

Give away, the things you don't know  
Give away, the things you don't know  
You can tell what you do, you can see the light  
You can do what we do, what we do is right  
You can tell what you do, you can see the light  
Baby loving you...

Baby said it  
Admit it was the first time for you, babe  
Set you free, you burned your body love  
Admit it was the first time for you, babe  
Baby with me, you burned your body love

(Yeah I... you burned your body love)  
(The light)  
(Your body love)  
(First time for you)

(First time)  
(Oh baby)

Seein' your mind (maybe you want me)  
Better see you goin (you don't know why)  
You need love (baby keep it stayin' alive)  
Make it right (don't you want to?)

Give away, the things you don't know  
Give away, the things you don't know  
You can tell what you do, you can see the light  
You can do what we do, what we do is right  
You can tell what you do, you can see the light  
Baby loving you...

Baby said it  
Admit it was the first time for you, babe  
Set you free, you burned your body love  
Admit it was the first time for you, babe  
Baby with me, you burned your body love

Give away, the things you don't know  
Give away, the things you don't know  
You can tell what you do, you can see the light  
You can do what we do, what we do is right  
You can tell what you do, you can see the light  
Baby loving you...

Admit it was the first time for you, babe  
Set you free, you burned your body love  
Admit it was the first time for you, babe  
Baby with me, you burned your body love

Give away, the things you don't know  
Give away, the things you don't know  
You can tell what you do, you can see the light  
You can do what we do, what we do is right  
You can tell what you do, you can see the light  
Baby loving you...

Admit it was the first time for you, babe  
I set you free, you burned your body love  
Admit it was the first time  
Baby with me, you burned your body love
