I could lie here with you all day long
hearing your wierd sounding ways
I wonder what goes throught your head
I wish i could know, what you say
I'm safe with you in my arms, I hold onto you
you keep me strong
your bones don't fit mine, we're on borrowed time

CHORUS

Who knows where you're going to
'Cos this world ain't good enough for you
Who knows why things go so wrong
All I know is, when you're leaving
I'm ready to run, ready to run
Where have you been to all day?
was it the other side?
I'm in awe as you look round the room
could there be angels in your eyes?
My heart will bleed, at the thought you will leave me
My soul needs you here
Don't make me face my fear....

chorus

let me breath for you
let me speak for you
take me with you, just take me with you
who you talking to?
what you going through?
It does me in
when the panic sets in.....
chorus
