Deep in the night I come to you
Screaming in the sky, it turns blue
The ghost that vanished before me
The soul that also cried for me
The things that I wanted you to hear
But you disappeared
How safe can I be
When you're not with me
Half of my life belongs to you
So pull me through

I'm stuck in this pain you brought me
That's why I'm falling slowly
Down on bended knees
So you could see

The times has passed
But why can't I let go
Why do these things don't go
Away!!!
The memories make me bleed
And they make me whole

I miss your side of the bed!
(I miss your side of the bed)
The nights are hollow now!
(The nights are hollow now)
I miss your side of the bed!
(I miss your side of the bed)
The nights are hollow now!
(the nights are hollow now)

I'm stuck in this pain you brought me
(How safe can I be)
And now I'm falling slowly
(When you're not with me)
Down on bended knees
(Half of my life belongs to you)
So you could...
(So pull me through!)
