This means time's over.

All these fakers, the vikings

She moves like she had

Almost, snowman the white end

You've got blood on your hands

Or you petrified

Now i see you lying there.

This means time's over

All these lamers with bounties

Take him as a friend of yours

There's nothing to do with me

You've got blood on your hands

Or you petrified

Now i see you lying there.

Oh you can't deny !
