safe games you play  
you are all alone again  
and i'm afraid to say  
hes way to loud, i'm way to loud  
i wonder wich one your gonna take home tonight  
cause when your all alone  
you can decide the right way to go

so say what you wanted to say  
i'm alright  
i sit alone and beleive that on top of everything  
i'm alright

safe games you play  
you are all alone again  
and i'm afraid to say  
hes way to loud, i'm way to loud  
i wonder wich one i'm gonna take home tonight  
its a waste

so say what you wanted to say  
i'm alright  
i sit alone and beleive that on top of everything  
i'm alright

your such a waste of time  
your wasting my time  
your such a waste of time  
your wasting my time

my time, my time, my time  
if you want to  
if you need to  
i'll be there

your wasting my time  
your wasting my time  
can you feel this  
and if you need me i'll be there
