You were right this is everything I need.
Before tonight I was thinking that I might be lonely
forever.
And all this time it never made sense to me.
While the faster they come the longer they take to
leave.

Well, can I get closer now?
Unless you want to be by yourself
Why can't I be closer now?
So I can show you if you don't know how

You were right this won't be easy
Well, I'm sorry I couldn't understand in time cause I
tried
I must have made a mess you've come and left and I
haven't seen you since and
I hope it doesn't have to happen again.

Well, can I get closer now?
Unless you want to be by yourself
Why can't I be closer now?
So I can show you if you don't know how

Secrets fall, you call and cry
so try tomorrow if not today
I'll sneak away and come see you again.
'cause if you don't mind, if you don't mind
I'll sneak away and come see you again... again.

You were right this is everything I need.
Before tonight I was thinking that I might be
lonely...forever.
