

Singapore National "It's The Little Things"

Visit "[It's The Little Things](#)" on MotoLyrics.com

Over the years, I've grown to be a part of you
You've cared for me and opened the way to a happy
and beautiful life
You make me feel warm and safe and give me hope
for brighter days

Chorus:

It's the little things that we share, the love and joy that's
in the air
The children's laughter everywhere, and all our
favourite things

Over the years, I've grown accustomed to your ways
And no matter where I'll be, it warms my heart to know
that
You're always here for me

(Repeat Chorus)

Over the years, I've learnt we share a destiny
And no matter how good others may be
No one cares like you care for me
Cause deep down inside I feel you're a part of me
My Singapore, the place that I call my Home
