Tomorrow brings enchanting moments
A brand new day of inspiration
Like a river flows, to where our dreams unfold
This feeling is never like before, a new beginning for
all

Chorus:

Let us celebrate this moment, a brand new day awaits
Let us reach out for our dreams out there
Moments of magic we will share
Let us celebrate this moment, a brand new day awaits
We will always be, a city of friends
Time will bring for us to share
Moments of magic

Time brings new hopes for us to move on
There's more to treasure as we go on
The world is our stage, let us find a way
Moving into a different time where horizon shines

(Repeat Chorus x 2)
