Faith ways

Faith. What's faith? You'll never know it.

'cause your soul is worn out (by sin)

It just closed your eyes since you did mistake

Now infinity is waiting about

You're alone walking in a lake of tears

A breath of pain wraps around you and your blames

Lonely is the existence of your being

Of your nature, of your faith, of your name

How many will fall down

Down from the crying wall

All empty souls coming out

Out from their prison-world (no world)

Kissed by death you'll see just the dark

A veil of deceit that covers your eyes

Once you held out your hands, selling your conscience

To those ones who filled your mind with lies

Slowly raped by sententious commands

In this 'inferno' punishment for you is done

Sadly fading now your inner light dies

Roaming endlessly, your destiny is gone

Feel your life as it's starting to die

The truth is not what you've created

This false consciousness is an easier way

To hide yourself from what you just can't find

Snake shaped knife in your heart

Deep inside by the wings of doubt (remember)

Sin just closed your eyes since you did mistake

Now infinity is waiting about

...And the oppressive fear of knowing nothing

Ruthlessly turns into a certainty

A new kind of knowledge will rise

From the bottom of your enslaved soul now screaming:

...(no return)
