Memories burning in your brain  
As you mentally die  
Always right or wrong in your deeds, real...  
...Belief wasn't your why

Feel your bare thought boiling in pain and  
Making your dream no more  
Now all this drifting through life is  
Faking you to a slow decline  
That will  
Finish your helpless soul off  
(Remember, your disgrace is the strength of another...)

You were tempted to share your remorse  
Or to pray for the end  
But on the road to your conclusion  
Your path steeply descends

Now, giving yourself up to despair, you...  
...Feel consumed by the time  
Past no longer tortures your eyes, but  
All I see is no lack of  
Sadness  
Coldness towards your own life

You did never look for freedom  
Tied to the schemes of humanity  
And your frailties are easy to see  
But regarding all my wisdom  
In front of this sad reality  
No more my life is scaring me...

...And the solitude in it's cold embrace  
Is silently touching you  
Your nerves need frustration...  
...An instrument of torture, so pure  
Now almost mortal  
The oblivion's coils you're in  
Another star dying away  
The umpteenth sign on my...  
...Skin
