Yes I  
I'll never forget the things you taught me  
No I, I'll never forget the vibes you gave me  
The heat of your sun and the sound of your streets  
Still live in me, your people, your people,  
The smile of their children (I love you) oh Africa, love  
Africa  
(I love you) from the deepest of my heart  
(I love you) oh Africa, love Africa  
(I love you)  
I know you could be Zion on Earth  
Yes I know you could be Zion on Earth  
But Babylon wickedness drives you in a mess  
And let your children suffer So I cry, Lord I cry..  
Yes I  
I'll never forget the things you taught me  
No I, I'll never forget the vibes you gave me  
(I love you) oh Africa, love Africa  
(I love you) from the deepest of my heart  
(I love you) oh Africa, love Africa  
(I love you)  
I know you could be Zion on Earth  
Yes I know you could be Zion on Earth But  
Babylon wickedness drives you in a mess  
And let your children suffer Africa, Africa,Africa...ici
