Some play reggae in a commercial way
Money, money they say they want
Money, more money, just money, more money
Some play reggae
Demma slackness today, easy, easy,
To talk about sex, that's so easy
(Reggae's) Reggae's born to shout people's pains
Never forget oh no, (reggae's) reggae's born
To give love to men ...
Never forget oh no, (reggae's) reggae's born to shout
people's pains
Never forget oh no
So big it up, reggae now Bigging it up, bigging it up
Big it, big it up reggae now
And if you can feel, truthfull vibes
Through his sound, through Marley's style
You could share it in this time, share it man
(Reggae's forever alive) each day of your life
(The message got to stay alive) share it, oh man
(He said "Stand up for your rights")
So next time his vibes could be I and I vibes ...
Share it man
(Reggae's forever alive) each day of your life
(The message got to stay alive) share it, oh man
(He said "Don't give up the fight")
So next time his vibes could be I and I vibes ...
So big it up reggae now
Bigging it up, bigging it up
Big it, big it up reggae now
