In the mood for love tonight
Can never do me harm.
I want my sixteen ladies tonight
I put up my alarm
(chorus): and i'll be coming home late again
Without a reason were down again
And i'll be coming out sorded again
Call me near when my baby moves
Call me near when my baby is **(a side)
You never do my harm
I've got my sixteen ladies tonight
The sound of my alarm
Chorus
Never watch my lady go
** *(I came near when) my queens to fight
You never do me harm
Got my sixteen ladies around
The tune of my alarm
Chorus (2x)
You caught me around my baby you move
You caught me now walking 3x
You caught me around my baby you move
You caught me now joking
But you never watch my lady go
Chorus
