Sioux: vocals, camera

Severin: synthesizers, rhythm box

Budgie: drums

She falls into frame with a professional pout but the  
polaroids ignite on seeing their subject and the  
aperture shuts-too much exposure

Voyeur sucks into focus-floodlit the glossy kiss-pit but  
as emulsion drips down...down  
The aperture shuts-too much exposure

Come into this room-come into this gloom see the red  
light rinsing another shutterlut wincing the sagging  
half-wit sister

Pretty, pretty picture

Of an ancient nipple shrinking-that kodakwhore winking  
til the aperture shuts-too much exposure.
