So bring sunrise, slowly
So she has the time, to see
This moonlit cemetery stones
As all surrounding sounds echo
Through the trees, and they're filled with screams
This marble's marked with her name
If the keys she takes can drive her away

I'll be here for you, if there's ever a doubt
Though it's hard for me, but I can't live without
You in my life

So drink up, lovely
Because in time, you'll see
That if you chose to ignore me
This story will end in tragedy
Take these words, a forewarning
This candle's lit, emitting lost flames
If the keys she takes can drive her away

I'll be here for you, if there's ever a doubt
Though it's hard for me, but I can't live without
I'll be here for you, if there's ever a doubt
Though it's hard for me, but I can't live without
You in my life

So take these words, a forewarning
This marble's marked with her name
If the keys she takes can drive her away

I'll be here for you, if there's ever a doubt
Though it's hard for me, but I can't live without
I'll be here for you, if there's ever a doubt
Though it's hard for me, but I can't live without
You in my life
