"A Part Of Me"

For the moment that we've shared
The good times and the bad,
Days so low and days so high,
Here is a song to remember me by...

For the many happy years
The laughter and the tears
It's ending I know but we did try
Here is a song to remember me by

Take the rhythm, take the key
Take the words and melody
For it's all a part of me
The way you were the way you are
And the way you will always be

When there's nothing left to say
I'll turn and walk away
I'll dim the lights, I'll lay me down to die
Here is a song to remember me by

Take the rhythm, take the key
Take the words and melody
For it's all a part of me
The way you were the way you are
And the way you will always be.
