Recall a time I recall a place  
The heat of the day and my father's face  
Funny feeling when he smiled at me  
He made me believe in love  
In love for eternity

Recall the games in the yellow sand  
The heat, the night he held my hand  
Can he hear me, can he remember  
He sang to his baby on the last night  
On the very last night he held her...

Daddy are you still alive?  
I need you in order to survive  
And each time I thought of you I cried  
I'm lonely and I miss you in my life  
I'm lonely and I miss you in my life

My life has changed everything is new  
Snow flakes and cold rain to spoil my view  
The regulations to let me know  
Out here we could never let our love  
We could never let our love grow

Looking back in time to the years we shared  
Love's not a crime if you know he cared  
Can you hear me, can you remember  
You cried with your baby on the last night  
On the very last night you left her

Daddy are you still alive?  
I need you in order to survive  
And each time I thought of you I cried  
I'm lonely and I miss you in my life  
I'm lonely and I miss you in my life.
