Time, no reason, no rhyme...
I wonder why I wonder at all
Is it just a means to pass the time?
Is there any justice here for the small,
Why is it that some men turn to crime?
Where is the reason, where's the rhyme... ?

Your father wants you to be what he couldn't be
Saying "back in my days we had no choice"
Mother wants you to be just happy
Saying "love the girls but only marry the boys"!
Where is the reason, where's the choice?

Does anybody really know what life is hiding at the core
How can we be so sure we really die
'Coz we just don't breathe no more?

The rules and regulations are there to be obeyed
Or do you prefer to pay the time?
Never leave the shop till you're sure that you've paid
Something harmless could turn out a crime
Where is the reason, where's the rhyme... ?

Time, no reason, no rhyme...
I wonder why I wonder at all
Is it just a means to pass the time?
Is there any justice here for the small,
Why is it that some men turn to crime?
Where is the reason, where's the rhyme... ?

Does anybody really know what life is hiding at the core
How can we be so sure we really die
'Coz we just don't breathe no more?
Does anybody really know what life is hiding at the core
How can we be so sure we really die
'Coz we just don't breathe no more?

Should I be here where I am is it my destiny?
And after I've done what I can will I no longer be?
