You and me were probably meant to be  
So this is fucking with me mentally  
Cos I love you more than anything  
That's why I keep you far away from me

I'm not your type I can tell, you better go get  
someone else  
Look at the way I treat myself, I don't give a fuck  
about my health  
And you're looking for a real man, someone who can  
tell you "it's alright"  
I can't tell you nothing like it, you're too good for my  
own sight  
But don't you dare get it wrong, I would have been  
there right away  
But the fact is I ain't got shit, and I'm probably  
gonna get locked away  
So why do you wanna get caught in this shit  
Before we started we are history  
Cos I need you to understand I love you, that's why  
you should leave me

I'm not what you want me to be, though I wish I was in  
a way  
But the problem bothering me, is that I can't provide  
you with things  
That you need to be treated proper, I don't wanna  
see you left with nothing  
Cos you deserve the whole world and I wish I could  
have given you the sun on top of that girl  
Everybody's looking at me expecting things, that I  
don't finish and I don't want a queen  
To be left with a jester who's destined to mess up  
everything I get within my reach please  
I don't wanna keep no secrets, I don't wanna  
break your heart in pieces  
Could have given you lots of reasons, but I give you a  
kiss and I leave ya, see ya

You and me were probably meant to be  
So this is fucking with me mentally

Cos  I love you more than anything  
That s why I keep you far away from me
