It's been a lot of ups and downs,
I keep fighting for ups though
I've been on the ground
Looking for love yo
It's nothing like the feeling when you feel it inside,
When you're feeling what you're doing is right
And people tell me that I look so healthy
Do you understand how much that helps me
I've been looking in the mirror with a really Bad
conscience,
Everything I used to do is nonsense,
The dark color under my eyes told the story,
About the guy I was before me
I don't miss him at all I don't look back
Good riddance take a look at the new man.
And when the night comes I'm all alone
When it's too late to pick up the phone
And call my family back home
But I think about you all the time,
I'll call you when I get back about

Remember I told you,
I'm gonna show you
What I'm gonna do to make it right
I gave it my life I worked and I cried
I'll share it all with
You when I get home again

Little sis gotta little baby now
He got teeth already and his uncle's so proud
My god doesn't time fly fast
Only on the road these days with a bag
But when I get back, imma be there everyday for you
All of my friends and my three big brothers
My dad and my mother
I don't say it a lot but I love you
When I get home imma visit all the time
I can tell you all about the changes in my life
That I know you like better then before
I still fuck up but not like before
So don't be afraid

I got it under control
I can tell you this much
I'm not like that anymore
Everybody's talking I know you can hear that
But record with platinum that's my payback

Remember I told you,
I'm gonna show you
What I'm gonna do to make it right
I gave it my life I worked and I cried
I'll share it all with
You when I get home again

When I get back (when I get back)
Imma make some changes (imma make some
changes)
Imma make my payment
Stop complaining
Life is great now that I've made it

When I get back
I can be home and breathe again
And I'm so happy I can share it with you
When I get home again

Remember I told you,
I'm gonna show you
What I'm gonna do to make it right
I gave it my life I worked and I cried
I'll share it all with
You when I get home again x2
