Break now through your deepest fear
And reward will be most disastrous awe

I eclipsed the sun and blind birds
Feel down to the ground like lead
I'll take all the human joy
Serve in submission...

Celebrate my darkened reign
A solemn shape will disguise the Phoebius God
I saw you dead
Like shreds of your unreal faith...

...And God
Alone as always
Taken from the ground my hate
In ecstasy and shame
The view shows the the pain
You bring me closer
To the end of time
Feel me with your death
To the end of God

Come back to the source of power

The darkest eye like a deepest well
Let bricks of my hate soak in virgin tears

I eclipsed your love and mercy
Setting back the clock to barbaric times
How horribly you smell now
Raise your God and kill each other

Celebrate my darkened reign
A solemn shape will disguise the Phoebius God
I saw you dead
Like shreds of your unreal faith...

...And God
Alone as always
Taken from the ground my hate
In ecstasy and shame

The view shows the the pain
You bring me closer
To the end of time
Feel me with your death
To the end of God
