

Days Of The New "Where I Stand"

Visit "[Where I Stand](#)" on MotoLyrics.com

Some of us play life like a board game
It's new fun and you play it with people
There's a time you get tired and you put it away
Then one day you get it out and the places are broken

Self-discipline
I want to feel before you
Take it slow
Feel before you, yeah

Where I stand, where I stand
Where I stand, that's where I stand
Where I stand, where I stand
Where I stand, that's where I stand

Some of us live life like we didn't know it exists
Care, got to care or it fades away
Then one day you come to life
And living is over

I just want self-discipline
I want to feel before you
Take it slow
Feel before you, yeah

Self-discipline
Feel before you
Take it slow
Feel before you, feel before you
Feel before you, feel before you, yeah

Where I stand, where I stand
Where I stand, that's where I stand
Where I stand, where I stand
Where I stand, that's where I stand
