Yo, I'm a show 'em how we do  
Like this, like this, like this  
I like that, like this, like this, like this  
Yeah like that, yeah like that come on, come on, come on

Infatuated by the famous Mr. Bling  
Intoxicated by the energy inside me that I aint goin' do  
it that cool  
I thought the dragon would never see the day  
When the east coast the west coast the south all  
In together on a common thing infatuated

Some people say we're worthless  
'Cause we never front arund my way, infatuated  
Found a way to get crunk we dont tippy toe  
We stomp my way 'cause I'm from Baltimore

And you know that the dragon don't play  
So from the jump to the middle  
When I'm pump we gonna give you  
Want you want, Wardie

Associated with the ballers down the hill  
We like the ladies with the I dont give a-attitude  
Shorty rock those heels and I can't go for that  
And know that you can't go far for that  
And if you say you wanna roll, roll, roll

Some people say we're worthless  
'Cause we never front around my way, infatuated  
Found a way to get crunk we dont tippy toe  
We stomp my way, 'cause I'm from Baltimore

And you know that the dragon don't play  
So from the jump to the middle  
When I'm pump we gonna give you  
Want you want, Wardie

Like this, like this, like this  
Like this, like this, like this  
Like this, like this, like this

Show 'em how we do it come on  
Like this, like this, like this  
Like this, like this, like this  
Come on yo, do damn thing again

Infatuated by the clothes  
But it's more than that you know  
We got style baby, infatuated by the style  
Thuggin' it up with a smile baby  
Don't you know

Some people say we're worthless  
'Cause we never front around my way  
Found a way to get crunk we dont tippy toe  
We stomp my way, 'cause I'm from Baltimore

And you know that the dragon don't play  
So from the jump to the middle  
When I'm pump we gonna give you  
Want you want, Wardie

Some people say we're worthless  
'Cause we never front around my way, infatuated  
Found a way to get crunk we dont tippy toe  
We stomp my way, 'cause I'm from Baltimore

And you know that the dragon don't play  
So from the jump to the middle  
When I'm pump we gonna give you  
Want you want, Wardie

That's tight
