Dru Hill, pajam  
Without you, Def Soul

I'm free to fly like a bird over the earth, far away  
Seeing where beauty's entailed  
Places unveiled, take me away

When I envision your eyes, you light up the sky  
Holdin' my dreams in a cry  
Oh, now I feel my hearts been revealed  
Hiding so long, feeling all alone

I could never see myself without you  
Living so far from home  
I could never be myself without you  
Don't leave me alone

Soaring from a valley so low to a mountain so high,  
what a life?  
Exploring why your love never grows old  
No hug is too tight, it's just too right

When I envision your eyes, you light up the sky  
Holdin' my dreams in a cry  
Oh, now I feel my hearts been revealed  
Hiding so long, feeling all alone

I could never see myself without you  
Living so far from home  
I could never be myself without you  
Don't leave me alone

I could never see myself without you  
Living so far from home  
I could never be myself without you  
Don't leave me alone

I can do without  
(Material things)  
I can do without  
(Diamond rings)  
Girl, I won't get by

Without you by my side  
I need you in my life

I could never see myself without you  
Living so far from home  
I could never be myself without you  
Don't leave me alone

When I envision your eyes, you light up the sky  
Holdin' my dreams in a cry  
Oh, now I feel my heart's been revealed  
Hiding so long, feeling all alone

I could never see myself without you  
Living so far from home  
I could never be myself without you  
Don't leave me alone

I could never see myself without you  
Living so far from home  
I could never be myself without you  
Don't leave me alone

I could never see myself without you  
Living so far from home  
I could never be myself without you  
Don't leave me alone
