English Translation:

S.I.S.T.T.A.R. my love is going too far
I know you already know and I don't wanna let go
And if you want me then come and get me
I know you want this Sistar

Baby come and lead me
Take me, just you and me tonight " baby pick me ah
ah
Only you complete me, my loveable my honey
Only you can scold me

When I turn back, I keep thinking of you
I get scared when I wonder if this is love
I like you so obviously
Even though my friends make fun of me la la la la

Rap) Don't mve baby, come to me (come)
Stop looking at my friend Hyorin
Bring me up(up) up(up) just take only me
Bring me up(up) up(up) I want to lean on you

My love (my love) my heart (my heart)
Will you be with me just for today?

Baby come and lead me
Take me, just you and me tonight " baby pick me ah
ah
Only you complete me, my loveable my honey
Only you can scold me

(One) The words you only say to me
(Two) Your own cologne, and three four
A reason that I can't even count,
And every day I need you boo
And every night I missing you
I'm surprised at myself la la la la

If you want, I'll rap in front of you
I can't even cook ramen but I'll make food for
you
Even if this is a dream, I like it so much

If itâ€™s you, oppa, I like everything

My love (my love) my heart (my heart)
Will you be with me just for today?

Baby come and lead me
Take me, just you and me tonight â€” baby pick me ah
ah
Only you complete me, my loveable my honey
Only you can scold me

Baby itâ€™s alright, I will pretend to fall for it and hold
your hand
Kiss me softly on the lips tonight

Baby come and lead me
Take me, just you and me tonight â€” baby pick me ah
ah
Only you complete me, my loveable my honey
Only you can scold me

So baby Come lead me Hold me Control me
Oh baby baby love me hug me kiss me
So baby Complete me Hold me Control me
Oh baby baby love me hug me kiss me
