"Polishing The Looking Glass"

Visit "[Polishing The Looking Glass](#)" on MotoLyrics.com

Floating on this water
Couldn't be any better
'Less I sank to the floor
And could breathe

Clouds roll by in shapes of butterflies
And there's no time
To miss you any more
Now I can breathe

Funny when nobody's listening
The truth catches easy
There's no more fishin'

I'm up and away
Without you here
I'm captive
Polishing the looking glass

There's no one to be
Without you here
Everything's fine, I'm starting over
Polishing the looking glass

Fairy tales and fables
Many lies are on the table
In this crazy world

Sodom and Gomorrah
Not the storyville of horror
That we have today
What's been happening?

You said that you'd go away
If I had given in to tell you lies
And play you for a fool

I'm up and away
Without you here
I'm captive
Polishing the looking glass

There's no one to be
Without you here
And that's for which I'm, I'm starting over
Polishing the looking glass

I'm coming off like a roller coaster
The silly games and mistakes
I want you to know
I want you to know

Funny when nobody's listening
The truth catches easy
There's no more fishin'
You see, there's no more fishin'

I'm up and away
Without you here
I'm captive
Polishing the looking glass

There's no one to be
Without you here
Everything's fine, I'm starting over
Polishing the looking glass

This is isn't over
Polishing the looking glass
I'm starting over
Polishing the looking glass

Fairy tales and fables
In this crazy world
