(gong sound, people talkin in the background)

[Shoestring]

(talkin:)

I'm ready to tell you my secret now

I see dead people, but they don't know that they're  
dead

And sometimes, when it get real cold, that means  
they're mad

(rappin:)

Can't goto sleep I hear a beat it sounded just like feet  
Jump off my seat see they hit my window cause I gots  
the beat

I seen a shadow pullin cattle from a early battle  
I seen this snake up in my shoe and all I heard was  
rattle (rattle sound)

Picked up the phone and it exploded like a fucking  
bomb

I'm seeing shadows biting me like they was Jeffery  
Dahm

So many clicks, so many crews, trying to blow my fuse  
So many shadows in my yard that I feel abused (gong  
sound)

I'm hearing voices in my head and I can see a tread  
I'm seeing scores, a pitbull and he's smellin dead  
Slipped on my slippers, the ones with the chromed  
zippers

Knocked out a shadow in my room, all these Jack the  
Rippers

I fight with tigers, the shadows say they're Michale  
Myers

Just like Jack Nickleson played the Wolf I hear my  
neighbors driers

All this pain in my brain make me go insane  
I'm hearing chains, and tracks, and running trains  
(train runnin, gong sound)

Alot of these soldiers in my kitchen with they bloody  
blades

No hands, no knives, just bodies and their hand

grenades

I started ducking, them soldiers started bustin at me  
Flashbacks when I was 2 father hollered at me  
Hearin whistles the click from pistols got me live  
annoyed  
Past beef won't let me rest I live like sleepy Froyd  
All these songs in my head and can't nobody tattle  
Last night I killed 2 more, here comes another shadow  
(echos, gong sound)

[Bootleg]

(talking:)

We all walkin in the valley of the shadow of death  
So concentrate on your family, friends and loved ones  
Because you never know when there's a shadow

[Chorus]

[Kalonda,Ryan]

Shadooooow, every time I turn around there's a  
shadooooow  
Though I walk through the valley of a shadooooow  
(gong sound)  
Life's too short to take for granted fearing shadooooow  
I can't take this pain I'm feeling from these...

[Bootleg]

Woke up hopped out the bed this morning, felt  
somebody watching  
Opened my door no one was there I swear I hear'em  
knocking  
Cockin my pistol 'cause' I'm paranoid and ?in a zone?  
Somebody said whip me, but I know I'm home alone  
(gong sound)  
Jumped in the shower, trin' to wash away this eary  
feeling  
Walked out my bathroom seeing shadows dancing on  
the ceiling  
Put on my clothes, and smoked a cigeratte, and  
brushed my grill  
My pitbull Puppy barking at so what I know ain't real  
(dogs barking)  
Turned on my T.V. watching CNN, I heard a BOOM  
(explosion)  
2 shadows having sex, I hear'em fucking in my room  
Exit my residence the only face's a gust of wind (wind  
whistling)  
Too hard for wind, a shadow's what it must have been  
Ain't no such things ?as ghosts?, I'm tripping dawg and  
I know it  
Walked towards my car, the horn went off, a shadow  
had to blow it (car horns)  
I need a drink to think and sort out all these weird

events

I killed a man, my lifes been haunted ever since  
I can't believe the shit I'm seeing turning up my bottle  
I keep my eyes and I'll rip you, I swear I'm being  
followed  
Can't goto sleep at night unless I take a sleeping pill  
Reflections in the mirror, fucking with my head for real  
(gong sound)  
I never thought there was nothing wrong with how I  
think  
Until my momma told me: Leg, go see a shrink  
All these songs in my head and can't nobody tattle  
Last night I killed 2 more, here comes another shadow

[Chorus]

[Bootleg]

(talking:)

I thank God every mourning when I wake up  
'cause you never know when you're gonna walk out  
your front door  
and get murdered in your driveway  
So I'll be tellin you this: keep your mind on your family,  
friends, and foes  
'cause most niggas is hoes (gong sound)  
and they shoot you 'cause you bawlin more than they is  
So stay out them ?whole? in the warclubs  
Nigga show love to your family and friends  
And get your ass.....fuck'em

[Ryan]

shadoooooow
